Crypto Trading Dashboard System

Generated on: April 13, 2026 at 19:41:41

Crypto Trading Dashboard Security Audit

Executive Summary

Overall Risk Level:	HIGH
---------------------	------

Critical Findings	0
High Findings	2
Medium Findings	8
Low Findings	2
Total Findings	12
Errors During Audit	0

Key Recommendations:

1. Set DEBUG=False in production environment
2. Specify exact hostnames instead of wildcard
3. Consider upgrading password hashing algorithm

Detailed Findings

Severity	Category	Description	Recommendation
HIGH	Configuration	DEBUG mode is enabled in production	Set DEBUG=False in production environment
MEDIUM	Configuration	ALLOWED_HOSTS contains '*' wildcard	Specify exact hostnames instead of wildcard
LOW	Authentication	1 users may have weak password hashing	Consider upgrading password hashing algorithm
HIGH	Financial	Balance discrepancy detected: bots think they have more money than shared funds have	Check for shared funds between bots or improperly closed trades
LOW	Bot Operations	Bot AtomBot is STOPPED but marked as live	Review bot status consistency
MEDIUM	Bot Operations	Bot Solbottrend is in ERROR state: [Errno 22] Invalid argument	Investigate and restart or fix the bot
MEDIUM	Bot Operations	Bot XRPUpperBot is in ERROR state: [Errno 22] Invalid argument	Investigate and restart or fix the bot
MEDIUM	Bot Operations	Bot solupperbot is in ERROR state: [Errno 22] Invalid argument	Investigate and restart or fix the bot
MEDIUM	Bot Operations	Bot solusdt2 is in ERROR state: [Errno 22] Invalid argument	Investigate and restart or fix the bot
MEDIUM	Bot Operations	Bot solusdt2 is in ERROR state: [Errno 22] Invalid argument	Investigate and restart or fix the bot
MEDIUM	Trading	12 open trades older than 7 days	Review and close stale positions
MEDIUM	System Health	47 network/connection errors in logs	Check API connectivity and network configuration

Full Audit Report

ENVIRONMENT CHECKS

Configuration: DEBUG mode is enabled in production

Recomendación: Set DEBUG=False in production environment

INFO: SECRET_KEY appears to be strong (50 chars)

Configuration: ALLOWED_HOSTS contains '*' wildcard

Recomendación: Specify exact hostnames instead of wildcard

INFO: Binance API keys are configured

DATABASE CHECKS

INFO: Database connection successful

INFO: Total users in system: 1

Authentication: 1 users may have weak password hashing

Recomendación: Consider upgrading password hashing algorithm

BALANCE AUDIT

INFO: Binance REAL USDT:

INFO: Total: 333.5563035

INFO: Libre: 0.0

INFO: Usado (en órdenes): 333.5563035

INFO: - solbot1.1 (RUNNING):
